Dr. John R. Mott,

New York.

Dear Dr. Mott:

I am sending you a copy of my Annual Report as I promised you yesterday. Since looking at my dates I find that Friday, April 17th, is the day set for one of the term meetings of our Senate at which I must preside, and it is the close of a very important week. Also, the following Thursday, the 23rd, is a meeting of the Board of Governors, so that I am afraid I could not go to New York so as to be there on the 17th. I shall have to arrange our trip for a week later. I am sure, however, that you will have a very interesting gathering. We look back with great pleasure to your visit to us yesterday, which I am sure will have a very beneficial effect.

With kind regards, I am,

Yours sincerely,

President.

Dr. J. R. Mott,

New York.

My dear Mr. Mott:

I think that our letters must have crossed. I wrote to you on Monday that to my great regret April 17th will be an impossible day for me to leave Toronto, as on that night I have one of the most important Senate meetings of the year, and the days previous are extremely busy, because of the meetings here of the Ontario Educational Association. If it had been the week following I should certainly have gone to New York and personally I regret very much that I shall be unable to be with you.

Mr. Taft had a great reception yesterday, and was speaking in a most kindly way of your work. We look back with great pleasure to your visit. With kind regards, I am,

Yours sincerely,

President.
